There are many medical options available today for healing the body and mind, but few accomplish true healing-and none bring creative restoration. Many people live in the cycle of dependency and the endless search for relief, even allowing the fear of losing their healing to take hold after a small success. With wisdom, revelation from God, and plenty of scriptural support, Joan Hunter reveals powerful truths about healing and being whole. There is good news! God wants to heal every person. His power is limitless, His plan is great, and He will provide for everything. We simply have to accept his vision and believe. God knows everything, including the root causes of our diseases. Sin gives the devil permission to attack our bodies with sickness. God wants you to come before him in humble repentance and receive healing. He wants you to become the person He designed you to be.
